

Santa Marta- Colombia, September 2019

Inputs: Owned and Third Party.

Our smallholder program accounts for 72 farmers under independent and associated sourcing model that account for 24% of global FFB input (Sep-2019) and are ALL supported fully with:

- Agronomical guidance for Best Agricultural Practices
- Establishment of Integrated Pest Management
- Third-Party auditing at no cost
- Credit and Financial support/management
- Environmental and social management of farms
- Subsidized Transportation and Fertilization

Providers	Number	t/year ave.	Size (ha)
Independent (Estates)	6	22,158	1069
Associated (Scheme)	64	12,906	679

Sourcing by the Daabon Extraction Mills (2 facilities in total):

- Tequendama: 24% third party -above described- and 76% own plantations (all certified RSPO)
- Palma y Trabajo: 100% own plantations (RSPO Certified)

Crushing capacity is dedicated exclusively to own operations, thus it is 100% certified under the RSPO IP model.

Sourcing: Oil sold under the Daabon brand comes from the Daabon owned plantations and mills, under the RSPO model, this includes all owned and operated refineries (including BioSC)

All our suppliers are included in of our certifications as our supply partners (co-responsibility). Geo reference (name and location) is available for download, and the list as follows in page 2. Crushing facilities only receive 100% PK from the certified owned plantations, independent estates and associates.

Risk Management of Own Mills:

No high-risk mills have been identified in our supply chain. The definition of risk is related directly to any human rights, environmental, labor or community issue having arisen in the long (10+years) / short term (1 year). Independently to our RSPO commitment that constitutes the main methodology to assess risk, the supply base is assessed quarterly. The results are shared in a stakeholder meeting.

Any further information, please do not hesitate to contact us at fguerrero@daabon.com.co.

Felipe M. Guerrero
Sustainability Director
DAABON Group
